Contract No. W-de.NBI-009

Project Description

The IPK provides 3 services for plant researchers: (1) The **CATS** - Crop Analysis Tools Suite offers various tools including the **Web-Blast Server**, **MISAWEB**, **BRIDGE** and the new tool **PanBARLEX**. (2) The **e!DAL-PGP** Plant Genomics and Phenomics Research Data Repository for data publication. (3) The IPK hosts **EURISCO** (European Search Catalog for Plant Genetic Resources) which provides information about more than 2 million accessions of crop plants and their wild relatives, preserved *ex situ* by about 400 institutes. Furthermore, IPK provides training for all offered services and is active in the ELIXIR Plant Science Community, the Biodiversity Community, and the ELIXIR Data Platform.
