

HD-HuB de.NBI-DKFZ: Human Bioinformatics

(According to the former
de.NBI project phase)

Contract Nr. W-de.NBI-013

Michael Boutros, Benedikt Brors, Ivo Buchhalter, Daniel Hübschmann, Pavlo Lutsik, Michael Scherer, Oliver Stegle
Deutsches Krebsforschungszentrum (DKFZ), Heidelberg

Short description of the project

de.NBI-DKFZ is offering services in the following areas: Cellular phenotyping and analysis of high-throughput genetic perturbation/interaction screens (Boutros); analysis of epigenetic data (Brors, Lutsik, Scherer); analysis of multi-omics single-cell sequencing data (Stegle); and analysis of large-scale human genome sequencing data (Hübschmann/Buchhalter/Brors). In addition, de.NBI-DKFZ operates one of the de.NBI cloud centers.

de.NBI services

Services: 16 tools, 6 workflows, 3 databases, including:

- one touch pipeline (OTP) for large-scale sequencing data
- circlize (R package, circos plots, visualization)
- ComplexHeatmap (R package, visualization)
- EnrichedHeatmaps (R package, visualization)
- YAPSA (SNV signature analysis, R Package)
- LIMIX (linear mixed models, genetic variation/gene expression)
- slalom (single-cell RNA sequencing data analysis)
- MOFA/MOFA+ (multiomics factor analysis)
- E-CRISPR (sgRNA design, genomic perturbation screens)
- GenomeCRISPR (database, genomic perturbation screens)
- GenomeRNAi (RNAi phenotypes, genomic perturbation screens)
- BiocompR (R package, visualization)
- Methview.qc (QC of array-based methylation data)

KPIs (2023)

	Citations	Downloads/ month	Visits/ month	Executions/ month
all services	1800			
Tools		25,000		
Web applications			1,500	
Workflows				43,000

General information on the project

- Paid from de.NBI grant:
- 3 FTE
- Other staff involved:
- 3.5 FTE

Progress report

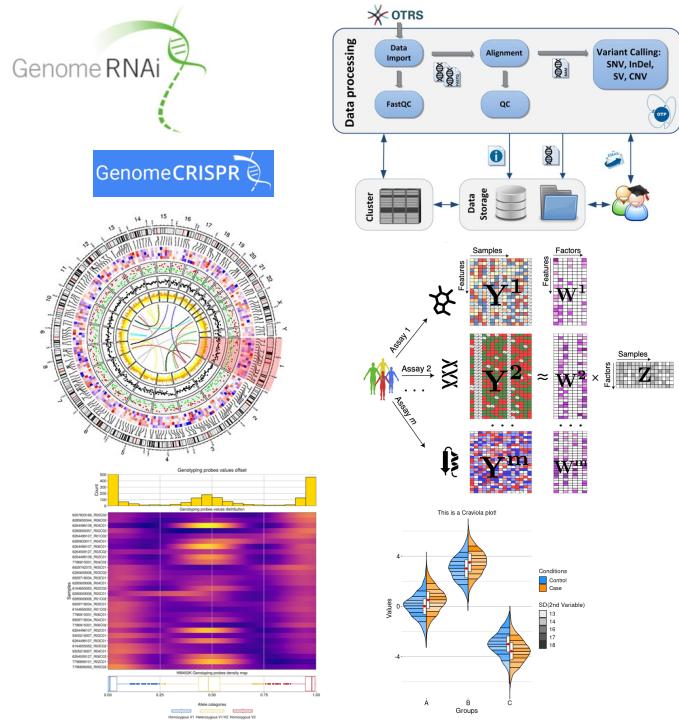

Additional services listed for ELIXIR:

- BiocompR
- methview.qc
- MOFA
- slalom
- LIMIX

E-CRISPR: work on database (improve security, technical improvements.)

Cloud (see additional poster):

- managed Kubernetes (KKP/Kubernetic)
- interaction with GHGA
- ISMS / ISO27001 certification (under way)

de.NBI Training and education

Will resume training courses in 2025 (2 courses)
